App

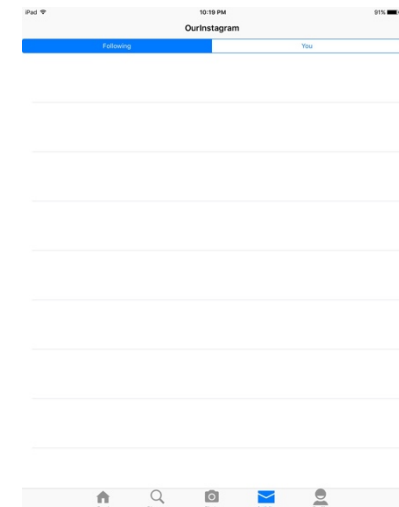

1. Instagram-like App

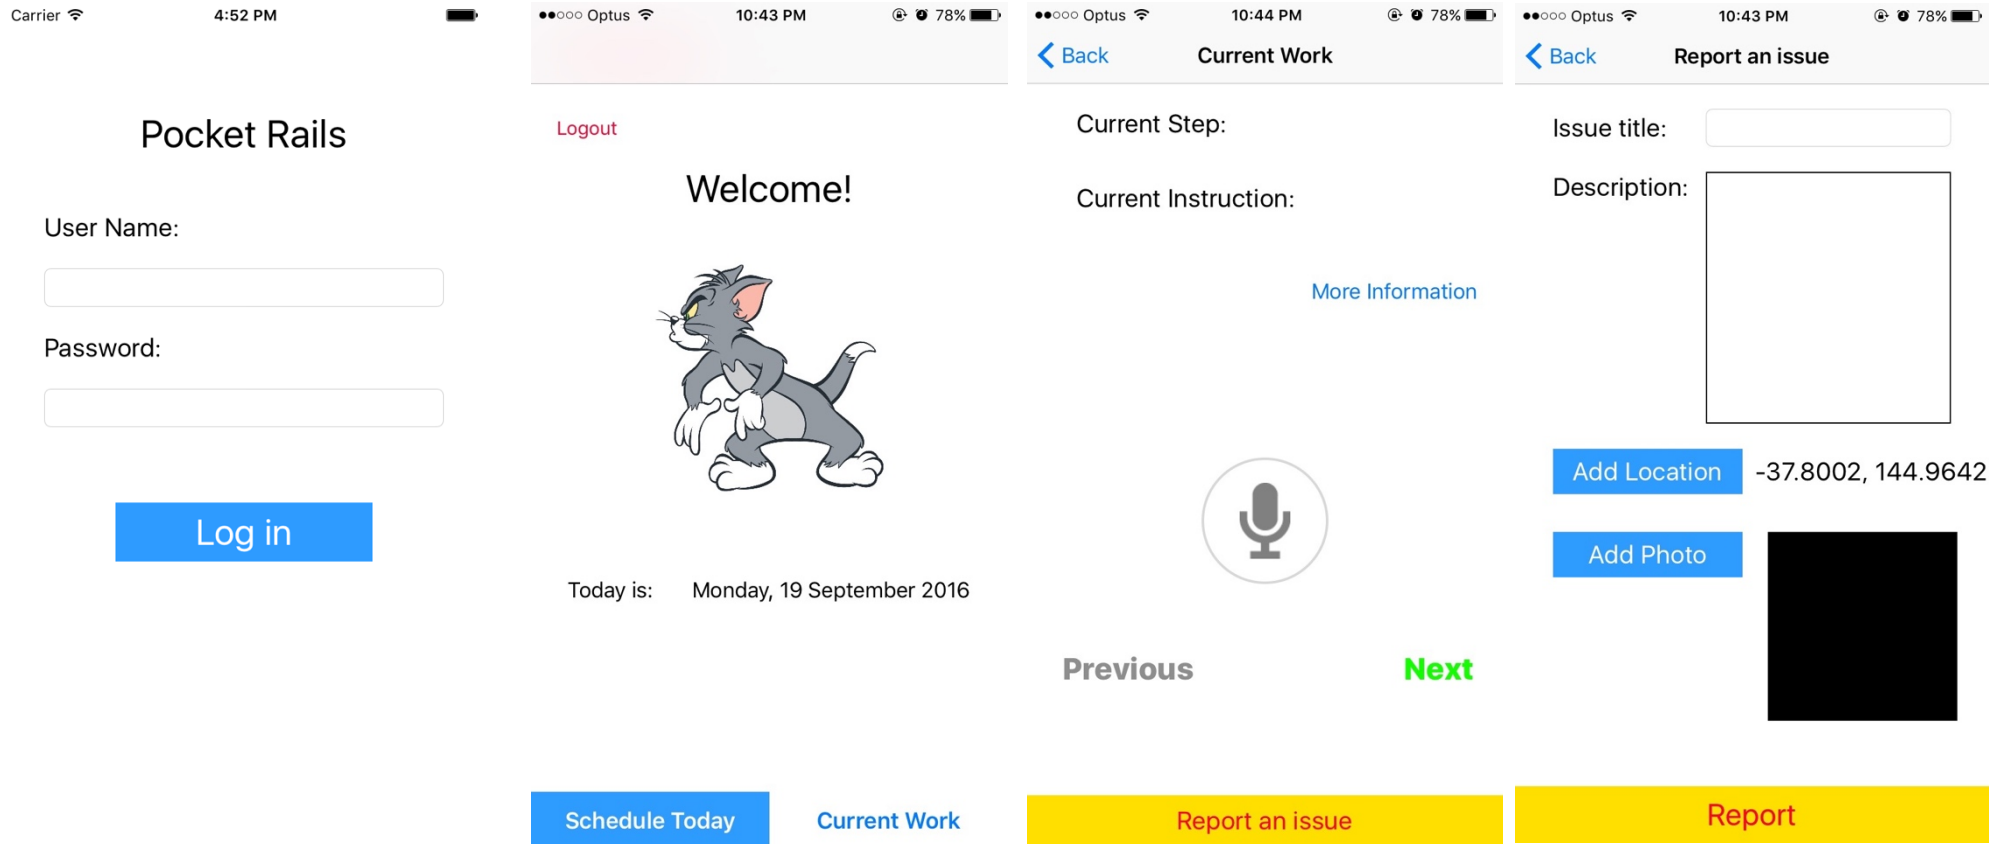

Technology: Swift

Source Code: <https://github.com/larryhan41/OurInstagram>

PS: As the APP was developed about one year ago and Instagram has adjusted its API, some of the functions can not display very well. Please refer to the source code.

2. Pocket Rails - Front end IOS client

Technology: Swift

Source Code: <https://bitbucket.org/hackthon2015/hackthon/src/f841b9990be23507268b9af13b56b5acc02aa6aa/Client/GeHack/?at=master>
